

Mia Hines

hines.mia@wustl.edu

Education

Bachelor of Arts degree with a major in Computer Science and a minor in Statistics.

Grinnell College in Grinnell, IA. May 2024.

Supplementary Educational & Certificate Programs

- Middlebury Institute of International Studies: Graduate-Level Semester Program in Environmental Studies • January-May 2023, GPA: 4.0/4.0.
- MIT Institute of Data, Systems, and Society (IDSS): Data Science & Machine Learning • June - August 2023
- Techquitable: Software Developer Training Program • January-May 2022
- Career-Prep & Networking Conferences: GEM Associate Fellowship Conference 2024, Grace Hopper Celebration 2024, Grace Hopper Celebration 2023, Iowa Technology Summit 2022

Research Experience

Ph.D. Student • Washington University in St. Louis • August 2024 – Present • St. Louis, MO

Faculty Mentor: Alvitta Ottley

- Creating a gamified version of a visualization literacy assessment to increase diverse audiences' participation.
- Writing a paper on the gaps between practitioner design guidelines and empirical evidence.
- Analyzing how visualizations are used in the news media.

Media Lab Research Assistant • MIT • June 2023 – Present • Cambridge, MA

Research Supervisor and Faculty Mentor: Ufuoma Ovienmhada and Danielle Wood

- Performing a time-series analysis (2000-2022) on temperature rise occurring at state and federal prisons in the United States.
- Configuring and analyzing multiple statistics relating to extreme heat for each summer for each prison facility. Cleaning and wrangling the following datasets: satellite images (Landsat) and daily air temperature (Daymet).
- Developing maps and statistical visualizations for further analysis of thermal disparities.

Graduate Assistant • Middlebury Institute of International Studies (MIIS) • February – May 2023 • Monterey, CA

Faculty Mentor: Carolyn Meyer

- Performed qualitative research on the influence of effective social justice programs and developed a curriculum model for students in visiting programs at the institution.
- Conducted a comprehensive survey of educational programs and service learning and facilitated the administration of focus groups amongst students, faculty, and executive staff.
- Compiled a final report with recommendations and instructions for embedding the developed social justice curriculum.

HCI & Visual Computing Research Assistant • Brown University • June – August 2022 • Providence, RI

Faculty Mentors: Jeff Huang and James Tompkin

- Brainstormed and proposed an educational technology project focused on improving an individual's handwriting. Product intended to be used to learn new languages or in elementary school programs.
- Produced an interactive web application called TeachHandi that accepted the user's writing of a word and compared it to the trace generated by a pre-existing ML model.

Publications

- Williams, L. *, **Hines, M. ***, Pandey, & Ottley, A. (2025). Juxtaposing Worlds: A Comparative Study of Empirical Visualization Literature and Practitioner-Curated Guideline [In Preparation]
- Ovienmhada, U., **Hines, M.**, Krisch, M., Diongue, A. T., Minchew, B., & Wood, D.R. (2024). Spatiotemporal facility-level patterns of summer heat exposure, vulnerability, and risk in United States prison landscapes. *GeoHealth*

Presentations

- Ufuoma Ovienmhada, **Mia Hines**, Andrew West, Jordan Mazurek, Richard Thomas, Brent M Minchew and Danielle Wood. *Spatial Pattern of Land Surface Temperatures and PM 2.5 in U.S. Prison landscapes using satellite-derived data*, American Geophysical Union (AGU) 2023. (oral presentation)

- **Mia Hines**, Jeff Huang, and James Tompkin. *TeachHandi: AI System and Interactive Program to Teach Handwriting*, Brown University Undergraduate Research Symposium 2022. (poster presentation)
- **Mia Hines**, Jeff Huang, and James Tompkin. *TeachHandi: AI System and Interactive Program to Teach Handwriting*, Leadership Alliance Undergraduate Research Symposium 2022. (poster presentation)

Professional Experience

Administrative Assistant & Full-Stack Engineer • Sorkins • August 2017 – May 2022 • St. Louis, MO

- Increased user accessibility and flexibility with information, cleaned up data, and instrumentally decreased the loading time of key operations by 15%.
- Developed new user search tools including Family Business Search, Archive Search, Branch Locations Search, and Business Social Media Search. Programmed new download options for the information.

Administrative Intern • Niños De Mexico • August 2018 – June 2019 • St. Louis, MO

- Developed comprehensive webpages and updated tools to make digital operations for both staff and nonprofit donors easier and more accessible.

Projects

Data Scientist • Course Project for Environmental History • February 2023 – May 2023 • Monterey, CA

- Arranged, cleaned, and managed a large dataset of transcribed daily logbook entries from 1835-1839. Served as data liaison to transcribers in the course.
- Visualized route and sperm whale activity on a world map using ArcGIS. Results were published in a cover-story article of the Earth Island Journal.

Virtual Reality (VR) Project Developer • Independent Research • September 2018 - June 2019 • St. Louis, MO

- Designed and programmed Virtual Reality simulations to improve users' mental health. Simulations incorporated mindfulness practices, serene environments, and guided meditations.
- Conducted a mixed-method user study to estimate the simulations' efficiency. Participants' heart rate decreased by 10% on average and 93% of them recommended the simulations.

Teaching and Mentoring Experience

Instructor Assistant, Kode With Klossy (KWK) CODE-A-BRATION Weekend • March 2025
 Founding Member & Lead Instructor, Girls Who Code (GWC) Chapter • October 2022 – May 2024
 Upperclassmen Mentor, Computer Science Department • January – May 2022, October 2023 – May 2024
 Executive Member & Co-President, Black Students in STEM (BSS) • September 2020 – December 2022
 Teaching Assistant (TA) for Introductory Statistics, Statistics Department • August – December 2022
 Student Advisory Member, Science Division Diversity & Inclusion Committee • January – May 2022

Fellowships, Honors, & Awards

- Clare Booth Luce Graduate Fellowship
- AI-ACCESS NRT Fellowship
- GEM Associate Fellowship
- 2024 Henry M. and Theresa P. Walker Endowed Prize for Excellence in Computer Science
- Marie Nesbitt Promise Prize 2022 (Excellence in Leadership)
- Dean's List 2020-2021
- National Center of Women in Information & Technology (NCWIT) Aspirations: 2020 Regional Winner
- Intel Excellence in Computer Science Award in 2019
